EDITORIAL

Science and Technology are regarded as necessity to any National Development. They contribute to quality of life, shape human culture and give understanding of the complex relationship between man and his environment.

The objective of Lapai Journal of Science and Technology (LAJOST) is to promote academic excellence through publication of research findings and other current issues in Science and Technology meant to improve the understanding and application of Science and Technology.

This edition is aimed at bringing to fore advances in Science and Technology, and also meeting the need for a journal that encompasses a wide range of topics in Science and Technology.

We appeal to researchers to send their research reports as the journal publish peer-reviewed original research, critical reviews or short communications in all fields of Science and Technology.

Finally, we appreciate all who contributed to the present edition of LAJOST and look forward to receiving and send current research report recommendation.

*Editor-in chief*
Prof. M. Ogunlana.

Submission of Manuscripts

Original research papers, discussion papers, short reports, review papers, and rapid communications are welcomed. Articles are to be submitted in three (3) hard copies, accompanied by a soft copy on CD-ROM. In cases where reviewers recommend minor corrections, the version on CD-ROM will be edited accordingly for publication. In cases requiring moderate to major corrections, another set of three (3) hard copies and a soft copy version on CD-ROM must be re-submitted. All articles in the stated procedures should be submitted to:

Prof. M. O. Ogunlana, Editor-in-Chief, LAJOST, c/o Faculty of Agriculture, IBB University, Lapai, Niger State, Nigeria.

Articles can also be submitted electronically by email to the Managing Editor: nobajee@yahoo.com

Articles submitted electronically however shall attract additional processing fees (additional N1,000) for downloading and re-processing.
Fees Chargeable

A processing fee, to be determined from time to time by the Editorial Board, will be charged along with submission of manuscript. Articles accepted for publication will be processed further free of charge and shall be published under the TETFUND sponsorship programme for University-based journals.

Submission Declaration and Verification

Submission of an article implies that the work describe has not been published previously (except in the form of an abstract or as part of a published lecture or academic thesis), that it is not under consideration for publication elsewhere, that its publication is approved by all author(s) and tacitly or explicitly by the responsible authorities where the work was carried out, and that, if accepted, it will not be published elsewhere in the same form, in English or in any other language, including electronically without the written consent of the copyright-holder.

Article Review

Submitted manuscripts shall be reviewed by three reviewers to be chosen on the advice of the Editorial Board. Authors, however, can fast-track the review process by submitting maximum four names of potential reviewers. Such submissions or nominations by the authors are not binding on the Editorial Board.

Article Structure

Papers should be written in most concise form. Occasionally long papers are accepted, particularly those of a review nature. Short reports and rapid communications are encouraged.

Heading/Title of Paper

The title of the paper should be written in upper case (capital) letters, bold (as in ‘a’ below), except where it includes a botanical or zoological taxonomic nomenclature which should be in lower case italicized (see ‘b’). examples:

a) GEOPHYSICAL AEROMAGNETIC EVALUATION OF THE CRETACEOUS BIDA BASIN IN NORTH-CENTRAL NIGERIA

b) STRATIGRAPHIC IMPLICATIONS OF A NEW SPECIES OF FORAMINIFERA *Globigerinodes nigeriaensis* IN THE BENUE TROUGH OF NIGERIA
Subdivision/Sections/Subsections

Articles should be divided into clearly defined sections, but not numbered. Any subsection may be given a brief heading. Each heading should appear on its own separate line. Headings of all sections and subsection shall be in upper case letters, bold; but should also be differentiated in hierarchical order into subsections in lower case letters. Example:
INTRODUCTION OF SUBJECT

Physical Parameters

Swelling

In addition to any other matter that may be subject-specific, all articles should be structured in the following format: ABSTRACT; INTRODUCTION; LITERATURE REVIEW / PREVIOUS WORK/GENERAL REVIEW; METHODOLOGY / MATERIALS AND METHODS; RESULTS AND DISCUSSION; CONCLUSION; ACKNOWLEDGEMENTS; REFERENCES.

Providion of keywords is optional

Author names and affiliations: Author names should be written with surname first (e.g. Obaje, Nuhu G.) or surname followed by initials (e.g. Obaje, N. G.). Present authors’ affiliation address should be written below the names. Indicate all affiliations with lower-case letters immediately after the author(s)’s name(s). Provide the full postal address of each affiliation.

Corresponding Author: Clearly indicate who will handle correspondence at all stages of reviewing and publication, also post-publication. Email address and the telephone number(s) of the corresponding author should be stated.

Figure and Table captions

Ensure that each illustration has caption in lower case letters, bold. Supply captions seperately or attached to the figure, but should be editable. A caption should comprise a brief title and a description of the illustration.

References

Citation in text

Please ensure that every reference cited in the text is listed in the reference list (and vise versa). Unpublished results and personal communications are not recommended in the reference list, but may be mentioned in the text. If these references are included in the reference list, they should follow the standard reference style of the journal and should include a substitution of the publication date with either ‘Unpublished results’ or ‘Personal communication; Citation of a reference as ‘in press’ implies that the item has been accepted for publication.
Reference style

Text: All citations in the text should refer to:

1. **Single author:** the author’s name (without initials, unless there is ambiguity) and the year of publication; e.g. (Obaje, 1994) or according to Obaje (1994)
2. **Two authors:** both authors’ names and the year of publication; e.g. (Obaje and Hamza, 2000) or according to Obaje and Hamza (2000)
3. **Three or more authors:** first author’s name followed by ‘et al.’ followed by year of publication. E.g. (Obaje et al., 2011) or according to Obaje et al. (2011).

List: References should be arranged first alphabetically and then further sorted chronologically if necessary. More than one reference from the same author(s) in the same year must be identified by letters ‘a’, ‘b’, ‘c’, etc., placed after the year of publication.

Examples:

**Reference to a journal publication:**

**Reference to a book:**

**Reference to a chapter in an edited book:**

**Off-prints**

The corresponding author shall be supplied with one complete volume of the booklet containing all the publications in that volume and in which the author(s) paper appeared. Request for additional copies of article or the volume containing the article shall be surcharged.
